

**EASTERN SAN JOAQUIN  
GROUNDWATER AUTHORITY**

# How might sustainable groundwater management affect growers?

The goal of the Groundwater Sustainability Plan is to establish sustainable management of groundwater through local control while meeting state requirements.

## What is SGMA?

The Sustainable Groundwater Management Act, or SGMA, is new statewide legislation that establishes a path for the sustainable management of groundwater for the first time in California's history.

## What does SGMA require?

The development and implementation of a basin-specific Groundwater Sustainability Plan (GSP) by Groundwater Sustainability Agencies (GSAs) that outlines a plan for achieving long-term groundwater sustainability. The Eastern San Joaquin Groundwater Authority, acting collectively on behalf of their 17 member GSAs, must complete their GSP by January 31, 2020 because the subbasin is classified as critically overdrafted.

## How do I learn more?

[esjgroundwater.org](http://esjgroundwater.org)

## Get involved:

### Attend GWA Board Meetings

2nd Wednesdays, 11 a.m.  
Robert J. Cabral Center, Assembly Room 1

### Attend Advisory Committee Meetings

2nd Wednesdays, 9 a.m.  
Robert J. Cabral Center, Assembly Room 1

### Attend GW Sustainability Workgroup Meetings

Approximately monthly (see website for updates)

### Participate in Informational Meetings

Approximately quarterly thereafter (see websites for updates)

## Contact your Groundwater Sustainability Agency (GSA)

The following Eastern San Joaquin Groundwater Authority member agencies work together to develop sustainable water resources for the Eastern San Joaquin groundwater subbasin.

### **Eastside San Joaquin GSA**

P.O. Box 846  
San Andreas, CA 95249  
209-754-3094
